

RECOMMENDATION LETTER

14.03.2022

To whomsoever it may concern

I have pleasure in writing this letter of recommendation for Mr. Shubhadip Nag who is intending to apply for PhD in your university. I have known him for almost 3 and half years as an undergraduate student, where I took courses in the field of Computer Science and Engineering.

He attended my classes on Data Structure and Algorithm, Operating Systems and Data Communication and Networking. During this tenure, I found he had developed strong knowledge in these fields and had good analytical skills too. Being a Computer Science student, his keen interest in computational skills and application of these skills in projects had impressed me a lot.

He is highly motivated, and always eager to learn something new. He has a good understanding of the fundamentals of Computer Science and engineering which will surely help him a great deal in future studies and research.

He is also a very good communicator and actively participated in class discussions. His sense of discipline and ability to work hard are worth mentioning.

To summarize in nutshell, Mr. Shubhadip Nag possesses high level of moral and ethical standards, self-confidence, technical skills, and communication skills and is always motivated to take up new challenges. I am sure his talents will be suitably utilized and proven in your organization if given an opportunity.

Prof. Lipika Datta

Assistant Professor,

Department of Computer Science and Engineering,

College of Engineering & Management, Kolaghat
